CSR No. 8576-E  
**FILED/ACCEPTED**

To: Chief, Media Bureau

Federal Communications Commission  
 Office of the Secretary

**PETITION FOR SPECIAL RELIEF**

Comcast Cable Communications, LLC, on behalf of its subsidiaries and affiliates ("Comcast"), pursuant to Sections 76.7 and 76.907 of the Commission's rules,<sup>1</sup> requests that the Commission find that it faces "effective competition" in 14 Pennsylvania franchise areas (the "Franchise Areas").<sup>2</sup>

The Communications Act of 1934, as amended (the "Act"), and the Commission's rules provide that cable television rates may be regulated only in the absence of effective competition.<sup>3</sup> Cable operators are entitled to demonstrate that effective competition exists on a franchise-by-franchise basis.<sup>4</sup> When a cable operator demonstrates that effective competition exists within a franchise area, cable rates in the affected area are no longer subject to regulation.<sup>5</sup>

---

<sup>1</sup> 47 C.F.R. §§ 76.7 and 76.907.

<sup>2</sup> See Exhibit 1.

<sup>3</sup> 47 U.S.C. § 543(a)(2); 47 C.F.R. § 76.905(a).

<sup>4</sup> 47 C.F.R. § 76.907.

<sup>5</sup> See *Implementation of Sections of the Cable Television Consumer Protection and Competition Act of 1992, Rate Regulation*, 8 FCC Rcd. 5631, 5664-5665 (1993) ("Rate Order").

Under the “competing provider” test set forth in Section 623(1)(1)(B) of the Act and Section 76.905(b)(2) of the Commission’s rules (the “Competing Provider Test”), a cable system will be deemed subject to effective competition if:

- (i) the franchise area is served by at least two unaffiliated multichannel video programming distributors (“MVPDs”), each of which offers comparable programming to at least 50 percent of the households in the franchise area; and
- (ii) the number of households subscribing to multichannel video programming other than the largest MVPD exceeds 15 percent of the households in the franchise area.<sup>6</sup>

As demonstrated below, the Competing Provider Test is satisfied in 13 of the 14 Franchise Areas – Berrysburg, Elizabethville, Hegins, Hubley, Lykens Borough, Lykens Township, Mifflin, Porter, Tower City, Upper Mahantongo, Washington, Williams and Williamstown -- because two unaffiliated MVPDs serve over 50 percent of the Franchise Areas’ households with comparable programming and the reported penetration rate for DBS providers exceeds the 15 percent threshold in the Franchise Areas.

In addition, under the “low penetration” test set forth in Section 623(1)(1)(A) of the Act and Section 76.905(b)(1) of the Commission’s rules (the “Low Penetration Test”), a cable system serving less than 30 percent of the subscribers in a particular franchise area shall be deemed subject to effective competition and exempt from rate regulation in that community.<sup>7</sup> Comcast satisfies the Low Penetration Test in the Upper Paxton Franchise Area. As shown below, the reported penetration level for Comcast is less than 5 percent in this Franchise Area.

---

<sup>6</sup> 47 U.S.C. § 543(1)(1)(B)(i) and (ii); 47 C.F.R. § 76.905(b)(2)(i) and (ii).

<sup>7</sup> See 47 U.S.C. § 543(1)(1)(A) and 47 C.F.R. § 76.905(b)(1).

**I. THE COMPETING PROVIDER TEST IS SATISFIED IN 13 OF THE FRANCHISE AREAS**

The two prongs of the Competing Provider Test are straightforward and objective. Both prongs of this test clearly are satisfied in 13 of the Franchise Areas.

**A. More Than Two Unaffiliated MVPDs Offer Programming Comparable to Comcast to Over 50 Percent of the Households in the Franchise Areas.**

The first prong of the Competing Provider Test requires that a franchise area must be served by “at least two unaffiliated multichannel video programming distributors...”<sup>8</sup> This requirement is easily satisfied, because the two major direct broadcast satellite providers (DirecTV, Inc. and Dish Network, Corp.) (“DBS Providers”) are unaffiliated with Comcast and “offer” programming that is comparable to Comcast to more than 50 percent of the households in Comcast’s Franchise Areas.

Service of an MVPD will be deemed “offered” when it is both technically and actually available.<sup>9</sup> The Commission has determined that DBS service is presumed to be “technically available” throughout the country due to its nationwide satellite footprint.<sup>10</sup> Comcast’s Franchise Areas are well within the satellite footprint of DirecTV and Dish Network. Thus, both DirecTV and Dish Network are “technically available” in the Franchise Areas.

---

<sup>8</sup> 47 U.S.C. § 543(1)(1)(B)(i); 47 C.F.R. § 76.905(b)(2)(i). Section 602 of the Communications Act of 1934, as amended, defines “multichannel video programming distributors” to include cable operators, as well as DBS and MMDS providers. See 47 U.S.C. § 522(13).

<sup>9</sup> *Rate Order*, ¶ 29.

<sup>10</sup> See *MediaOne of Georgia, Inc.; Petition for Revocation of the Certification of Gwinnett County, Georgia*, 12 FCC Rcd. 19406, ¶ 5 n.16 (1997) (citing *Rate Order*, at 5660-5661).

DBS service is presumed to be “actually available” if households in a franchise area are made “reasonably aware” that the service is available.<sup>11</sup> The Commission has stated that “a party may use evidence of penetration rates in the franchise area (the second prong of the competing provider test ...) coupled with the ubiquity of DBS services to show that consumers are reasonably aware of the availability of DBS service.”<sup>12</sup> The same reasoning applies here. DirecTV and Dish Network are among the largest MVPDs in the nation.<sup>13</sup> With approximately 33.6 million subscribers nationwide,<sup>14</sup> comprising over 33.6 percent of all MVPD subscribers,<sup>15</sup>

Thus, the Commission has not required the production of advertising to demonstrate that households in the franchise area are “reasonably aware” of the availability of DBS service. See *Bright House Networks, LLC Petition for Determination of Effective Competition (Lake Alfred and Dundee FL)*, 22 FCC Rcd. 4390, ¶ 6 (2007) (“Over more than ten years, we have made hundreds of findings that households in particular franchise areas are reasonably aware that they may purchase DBS services based on localized evidence. These accumulated showings amount to substantial evidence that households in all franchise areas are reasonably aware that they may purchase DBS services. In at least one earlier reported decision, we found households in a franchise area to be reasonably aware that they may purchase DBS service solely based on evidence of DBS's nationwide growth and local subscriptions, without reference to advertising or other promotion.”) (“*Bright House Networks – Florida*”).

ubiquitous advertising, and the substantial DBS penetration figures in the Franchise Areas, it is clear that consumers in the Franchise Areas are “reasonably” aware of the availability of DBS competitors.<sup>16</sup> Accordingly, both DirecTV and Dish Network are presumed to be “actually available” in the Franchise Areas, and are offered to over 50 percent of the households in the Franchise Area.

The Competing Provider Test also requires that the programming offered by the competing provider must be “comparable” to the programming offered by the cable operator.<sup>17</sup> The Commission’s rules define comparable programming as “at least 12 channels of video programming, including at least one channel of nonbroadcast service programming.”<sup>18</sup> The Commission has repeatedly recognized that the DBS Providers offer comparable programming under the Commission’s Competing Provider Test.<sup>19</sup> Each of the DBS Providers offer well over 100 video channels, most of which are non-broadcast services.<sup>20</sup> And, as shown in the attached channel line-ups, Comcast’s programming service offerings in the Franchise Areas are substantially similar to the DBS Providers’ programming services.<sup>21</sup>

Based on the above facts, Comcast has satisfied the first prong of the Competing Provider Test.

<sup>21</sup> See Comcast Channel Line-ups, attached hereto as Exhibit 3.

**B. The Competing Providers Serve Greater Than 15 Percent of the Households In Comcast's Franchise Areas.**

The second prong of the Competing Provider Test requires that the subscriber base of competing MVPDs, other than the largest MVPD, exceeds 15 percent of franchise area households.

The process of determining the precise number of DBS subscribers within a franchise area is not an exact science because DBS Providers track their subscribers according to the zip codes where each subscriber resides, rather than by political jurisdiction. In this case, Comcast relied on ZIP+4 codes associated with each Franchise Area in order to determine the number of DBS subscribers within the Franchise Area. The Commission has previously accepted ZIP+4 codes as "reasonable and sufficiently reliable for purposes of determining the presence of effective competition,"<sup>22</sup> and stated its preference for this approach.<sup>23</sup>

To determine the relevant ZIP+4 codes for the Franchise Areas, Comcast contacted Media Business Corp. ("MBC," previously known as "SkyTrends"). MBC has developed a process to accurately identify the ZIP+4 codes that correspond with the political boundaries of a particular community. This process utilizes enhanced mapping software that correlates ZIP+4 codes with the U.S. Census Department's "block group" level households. The "block group" measurement is the most precise Census tool available to measure households within a very

<sup>23</sup> See Public Notice, "Commission Announces New Standards for Showings of Effective Competition For Cable Service," 23 FCC Rcd. 12067 (2008).

small geographical area. With this software, MBC was able to identify the ZIP+4 codes that lie within the Franchise Areas.<sup>24</sup>

Comcast next provided all of the ZIP+4 codes for the Franchise Areas to the Satellite Broadcasting and Communication Association (“SBCA”). SBCA is the national trade association representing the two major DBS Providers, and it has assumed the responsibility for compiling subscribership data and responding to data requests from cable operators and franchising authorities engaged in effective competition proceedings. The DBS subscriber numbers reported in the attached Effective Competition Tracking Reports (“ECTR”) from SBCA reflect the total DBS subscribers within the individual ZIP+4 codes associated with the Franchise Areas.<sup>25</sup>

Finally, Comcast compared the DBS subscribership figures reported by SBCA on a ZIP+4 basis with its own subscribership, and was able to confirm that its own subscribership exceeded DBS subscribership in 10 of the 13 communities that qualify for effective competition under the Competing Provider Test – Berrysburg, Elizabethville, Hegins, Hubley, Lykens Borough, Porter, Tower City, Washington, Williams and Williamstown. Comcast is the largest MVPD in these Franchise Areas.

In the Lykens Township, Mifflin, and Upper Mahantongo Franchise Areas, Comcast serves in excess of 15 percent of the households, while DBS Providers serve in excess of 41 percent, 37 percent, and 50 percent, respectively.<sup>26</sup> The Commission has recognized that where “the subscribership penetration for both [the cable operator] and the aggregate DBS information each exceed 15 percent in the franchise area, the second prong of the competing provider test is

---

<sup>24</sup> See Letter from MBC (explaining ZIP+4 methodology), attached hereto as Exhibit 4.

<sup>25</sup> See Exhibit 5 (providing total ZIP+4-based DBS subscribership for the Franchise Areas, as well as all ZIP+4 data relied on in the Petition).

<sup>26</sup> See Declaration of Warren Fitting, attached hereto and Exhibit 7.

satisfied.”<sup>27</sup> Thus, it is immaterial in these Franchise Areas which MVPD is the largest, because both DBS (as shown below) and cable readily pass the 15% threshold.

To determine whether DBS subscribership exceeds the statutorily mandated 15 percent threshold in the Franchise Areas, Comcast compared the competing providers’ subscribership to the most recent U.S. Census occupied household unit figures for the communities.<sup>28</sup> This comparison yields the penetration rate for DBS Providers in the Franchise Areas.

As detailed in Exhibit 7, the subscriber rate for the DBS Providers in the Franchise Areas exceeds the 15 percent threshold required under Section 623(1)(1)(B) of the Act. Accordingly, Comcast meets the second prong of the Competing Provider Test.

Because Comcast meets both prongs of the Competing Provider Test in the Berrysburg, Elizabethville, Hegins, Hubley, Lykens Borough, Lykens Township, Mifflin, Porter, Tower City, Upper Mahantongo, Washington, Williams and Williamstown Franchise Areas, it faces effective competition in these Franchise Areas.

## **II. COMCAST SATISFIES THE LOW PENETRATION TEST IN ONE OF THE FRANCHISE AREAS**

In addition to satisfying the Competing Provider Test above, Comcast is entitled to an effective competition determination in the Upper Paxton Franchise Area, because the Company serves less than 30 percent of the local households in this particular Franchise Area.

Section 623(1)(1)(A) of the Act provides that a cable system will be deemed subject to effective competition if “fewer than 30 percent of the households in the franchise area subscribe

to the cable service of a cable system.”<sup>29</sup> The measurement of subscribership under this test “will be based on the subscribership of the particular cable system in question, and not an aggregation of the subscriberships of all cable systems and competitors in the franchise area.”<sup>30</sup>

To determine whether Comcast subscribership is less than 30 percent in this Franchise Area, Comcast compared the Company’s subscribership to the U.S. Census household figures for the community.<sup>31</sup> This comparison yields a Comcast penetration rate of 4.35 percent in the Upper Paxton Franchise Area.<sup>32</sup>

Comcast has demonstrated that fewer than 30 percent of the households in the Upper Paxton Franchise Area subscribes to the Company’s cable service. Accordingly, Comcast has satisfied the criteria for establishing effective competition under 47 C.F.R. § 76.905(b)(1) for this Franchise Area.

### **CONCLUSION**

Comcast’s cable system is subject to effective competition in 13 of the 14 Franchise Areas under the Competing Provider Test. The Company is subject to effective competition in one of the Franchise Areas under the Low Penetration Test. Based on the evidence presented herein, Comcast respectfully requests that the Media Bureau issue an order acknowledging the
